MEMORANDUM FOR: WILLIAM E. COLBY *m1* STAT  
FROM: [REDACTED]  
SUBJECT: CIA and the NSC Staff

One way we might better serve the NSC staff is by providing Dr. Kissinger's office and the senior members of the NSC staff with a list of names and phone numbers of key CIA personnel whom you have designated to be the focal point for action requests from the NSC staff. Such a list would include the names of persons for:

Indochina	The Middle East
China	South Asia
The Soviet Union	Africa
Western Europe	Economic Matters
Latin America	Strategic Weapons Problems

In conjunction with this, you will have to make certain that your key personnel, listed above, keep your office closely informed on all action items, whether formal or informal, being done for Dr. Kissinger and the NSC staff.

We can prepare such a list as soon as you have designated your National Intelligence Officers for each of the above areas and categories.
